

# Milan Nariya *Frontend JS Developer*

✉ sales@wedowebapps.com    ☎ 9558820373    📍 Ahmedabad

## Profile Summary :

- 5 years of experience in developing dynamic and user-focused web applications using trending JS Frameworks.
- Proficient in crafting Web Apps with React JS & Next JS, emphasizing offline capabilities and an app-like experience for users.
- Deep understanding and proficiency in JavaScript (ES6+), with expertise in asynchronous programming, closures, and ES6 features.
- Skilled in creating responsive, user-interactive interfaces using HTML5, CSS3, and modern JavaScript frameworks, with a focus on design and UX.
- Experienced in state management for applications using React Hooks, Redux, or Context API.
- Adept at integrating RESTful APIs and services into React and Next.js applications, ensuring seamless data exchange and connectivity.
- Expert in enhancing the performance of React and Next.js applications through strategies like code splitting, lazy loading, and optimizing lifecycle methods.
- Proficient in Git for version control, contributing effectively to team-based projects.
- Committed to staying updated with the latest advancements in React, Next.js, and overall front-end development.
